Contract No. N00-C-1420-6386

The United States of America, acting in this respect through its duly authorized Area Director, Navajo Area Office, hereinafter called the "Permitter" hereby grants permission to the United States Atomic Energy Commission hereinafter called the Permittee, the use of P.L.O. 2198 lands located in the SE/4 and the S/2 of the N/2 of Section 13, Township 13 North, Range 11 West N.M.P.M.

The right to use said property shall be concurrent with the term of U.S. Atomic Energy Commission Mining lease No. AT(05-1)-ML-60.8-NM-B-1 dated June 12, 1974 and shall automatically be terminated or renewed to conform with any modification of the term of said contract.

GENERAL PROVISIONS

In addition to all terms and conditions specified in AEC Mining Lease No. AT(05-1)-ML-60.8-NM-B-1 dated June 12, 1974 the following conditions are made a part of this agreement.

1. That all vehicular traffic cease when ruts are six (6) inches in depth, both on and off existing roadways, and no new ruts will be made to avoid old ruts.
2. Revegetation of damaged areas will be the responsibility of the lessee when it has been mutually determined that all exploration and/or mining activities have been completed. The eastern Navajo Agency's Branch of Land Operations will be contacted to determine the feasibility for such revegetation.
3. All exploration pits and drill holes will not be left unguarded or unattended for any length of time so as to become hazardous to humans and/or livestock. If left unattended, such pits or drill holes shall have a sheep proof fence constructed around such pits or holes at the expense of the lessee.

RPM

4. All filled in pits must not settle more than one foot below the surrounding terrain.
5. All drill holes will be plugged and abandoned according to United States Geological Standards and specifications.

In witness whereof, the parties hereto have caused this permit to be executed this 7th day of November, 1974 and this permit to become effective the 12th day of June, 1974.
